WHITEN / RECOVER / BOOST

# (S) PRO WHITENING

Saber White is a professional-grade treatment designed to whiten discoloured and stained teeth.

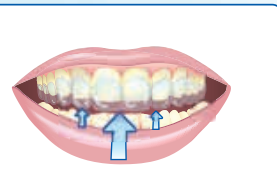

**Before treatment:** Brush and floss between teeth.

1

Apply gel to tray using syringe & plunger provided  
(Careful not to overfill the tray)

2

Insert tray onto teeth & wipe excess gel from gums

3

Leave for 1 hour  
or as directed by your dentist  
(Do not eat, drink or smoke during treatment)

4

Remove tray & chew 1 recovery tablet for 30 seconds  
(Just spit, no need to rinse)
